Miami

Emerging Companies
Mergers and Acquisitions
Venture Capital
Corporate Governance and Securities Regulation

Preston advises emerging and growth-stage companies on corporate matters, including venture capital financings, M&A, corporate governance and securities regulation. His background in finance, including prior roles in capital structure advisory and experience with entrepreneurship through acquisition, complements his legal practice.

Before becoming a lawyer, Preston worked as a software engineer on a graphics processing unit development team, providing a technical perspective to his work with innovative companies.
