Mergers and Acquisitions
Private Equity

Louise's practice focuses on a range of corporate transactions. These include mergers and acquisitions for venture capital-backed companies and private equity and corporate reorganisations. She advises on matters covering various sectors with a particular interest in software and other technology-related investments.

Louise's recent representative experience includes advising:

- Kpler on its acquisition of Spire Global's maritime business for $241 million
- PetLab Co. on its sale of a majority stake to BC Partners
- MoonPay on its acquisition of Helio
- Unchained Labs on its acquisition of Blacktrace Holdings
- Uber on its joint venture with Yandex and its reorganization of Careem into separate ride-hailing and super app business units connected to a $400 million investment by e&
- UiPath and its acquisition of Re:infer
- Sense Biodetection on its combination with Sherlock Biosciences
- Quantifeed on its acquisition of Alpima
