London

Bekah is a dedicated privacy and cybersecurity lawyer, forged in house across several industries. She has extensive experience navigating regulatory frameworks, including the General Data Protection Regulation, California Consumer Privacy Act and other laws with global implications, and is skilled at helping organizations develop and implement robust compliance programs. Bekah is adept at assessing risk and providing practical guidance.

Known for her collaborative approach and clear communication, Bekah works closely with clients to understand their unique challenges and deliver tailored legal solutions. She is committed to ongoing professional development, staying current with evolving legal standards and emerging threats in the cybersecurity landscape. Bekah's leadership is grounded in integrity and a passion for commonsense language and functional processes.
