Ariel represents emerging tech and life sciences companies and their investors in a variety of transactions – including financings, mergers and acquisitions, company formations, spinoffs, and joint ventures. He also counsels clients on corporate governance matters and other day-to-day legal issues. In addition, Ariel frequently speaks and lectures on topics important to high-growth companies and venture capital investors at institutions such as Cornell Tech and the NYU Stern School of Business.

Education

New York University School of Law JD

Cornell University BS

Admissions & Credentials
