Patent Counseling and Prosecution

Patent Counseling and Prosecution – Life Sciences

Jessica is an associate in the life sciences group with a focus on patent prosecution – including patent preparation, domestic and foreign prosecution, strategic counseling and portfolio management. She has extensive research experience in the fields of molecular and cell biology, gene regulation, development, neurobiology, genetics, genomics and evolution.

Before joining Cooley, Jessica was a postdoctoral researcher at Janelia Research Campus, as well as a Human Frontier and Marie Skłodowska-Curie Actions fellow at the Prud'homme and Gompel lab at the Marseille Developmental Biology Institute (IBDM) in France. She studied the evolutionary genetics and neurobiology of courtship behavior in fruit flies.

Education

Suffolk University Law School
JD, 2023

University of California, Berkeley
PhD, 2009

University of Chicago
BA, 2001

Admissions & Credentials
