Trevor focuses his practice on the representation of issuers and investment banks across a variety of public and private capital markets transactions, including initial public offerings, at-the-market (ATM) facilities and other equity offerings, debt offerings, exchange and tender offers and more. Trevor also regularly advises domestic and foreign life sciences companies with respect to compliance with US securities laws and corporate governance matters.

Trevor also advises emerging companies on a wide range of corporate matters, including venture financings and mergers & acquisitions.
