Bob uses his 30+ years of restructuring experience to guide companies and their boards of directors in Chapter 11 and out-of-court restructurings, help assignees generate value for creditors in assignments for the benefit of creditors (ABCs), and maximize recoveries for creditors' committees and creditors in a host of restructuring and related matters. Bob has developed a national reputation for helping clients deal with the intersection of intellectual property and bankruptcy law, representing licensors, licensees and others on these complex issues.

Bob's experience extends across industries – including life sciences, retail, software and energy – and ranges from companies restructuring billions of dollars of debt to middle-market companies selling assets and technology startups managing a liquidity crisis. He is often asked to bring his distressed M&A knowledge to bear in helping companies and private equity firms navigate the unique issues involved when buying assets from financially troubled or bankrupt companies. Bob also frequently represents clients pursuing alternatives to bankruptcy – including ABCs, winddowns and corporate dissolutions – and litigates complex preferential, fraudulent transfer and director and officer liability claims.

Bob's recent representative engagements include:

- **Lucira Health** in the successful Section 363 sale to Pfizer of substantially all of its assets in its Chapter 11 bankruptcy in the District of Delaware
- **PhaseBio Pharmaceuticals** in the successful Section 363 sale to various acquirers of substantially all of its assets in its Chapter 11 bankruptcy in the District of Delaware
