Internet and Social Media Artificial Intelligence

Zhijing focuses his practice on cyber and data privacy across various industries. He has extensive experience in assisting multinationals with their compliance with cyber and data security regulatory regimes in Asia, including helping companies set up compliance programs, negotiate data-related agreements, respond to data breaches and comply with cross-border data transfer requirements.

Zhijing also advises clients on data privacy issues and risks in the context of corporate transactions. He represents multinationals across a broad range of industries, including technology, healthcare, life sciences, internet, social media and artificial intelligence.

Zhijing is a Certified Information Privacy Professional for Asia. He also is a native Mandarin speaker and fluent in English. He is admitted to practice in New York.
