Patent Counseling and Prosecution – Technology
Technology
Software
Artificial Intelligence
Internet of Things
Unmanned Aerial Vehicles

Peter focuses his practice on patent prosecution, counseling and portfolio development. He has experience working with companies of all sizes across a broad range of electrical, software and medical device technologies – including experience with artificial intelligence, autonomous vehicles, drones, cybersecurity, blockchain, cameras, semiconductors, Internet of Things, sensors and medical imaging devices.

Before joining Cooley, Peter worked as a technical adviser and patent agent at Oblon. Prior to that, he worked as an electrical design engineer at Honeywell Aerospace, where he was involved in the design of power, digital and radio frequency circuit boards for airplanes and drones.

Peter also is a JD candidate at the Georgetown University Law Center.

Education

Georgetown University Law Center JD, expected 2025

University of Washington BS, Electrical Engineering, 2019

Admissions & Credentials

US Patent and Trademark Office (USPTO)
