Life Sciences Corporate Partnering and Licensing

+1 703 456 8531

Reston

Joe represents clients in life sciences, advising them on various commercial and intellectual property transactions, including licensing and collaboration agreements, along with broader corporate transactions involving intellectual property.

Before attending law school, Joe was active in public health, receiving a Wisconsin Without Borders award for community engagement and a Master of Public Health in health policy and management from Emory University's Rollins School of Public Health. He is passionate about helping clients leverage their intellectual property and other assets to spur innovation in life sciences.
