London

Michael is a pragmatic and effective dealmaker with deep industry experience. He advises on both transactional and regulatory matters and is highly regarded by clients involved in complex transactions who value his clear, strategic guidance. Michael focuses on licensing, M&A and corporate partnering transactions, from initial IP licenses and collaboration agreements through to major international deals across the life sciences sector. Known for his deep industry knowledge and efficient, commercial and pragmatic approach, Michael is a trusted advisor to life sciences companies.

Michael is sought out for his skill in providing life sciences and healthcare regulatory advice both in relation to transactions and on an advisory basis.
