London

Graham is a senior legal assistant with nearly thirty years of experience supporting teams and lawyers in complex disputes. He has assisted in issues in arbitrations, international disputes and high-volume commercial disputes, as well as in white-collar crime matters and investigations.

Graham has extensive experience in providing legal assistance within the framework of international arbitration standards in the insurance and reinsurance sector, as well as in boundary disputes and has worked on an international land and maritime boundary dispute at the International Court of Justice.

Graham acts regularly in cases involving the management of more than one million documents and has technical experience in document management systems to perform efficient evaluations and analysis. He also often supervises other paralegals in complex cases.
