Palo Alto

Noah focuses his practice on the representation of emerging and established biotechnology, pharmaceutical and life sciences companies. He leverages his prior experience as a laboratory scientist, patent prosecutor and founder to counsel companies in licensing, collaborations and commercial transactions.

Noah received his JD from Harvard Law School, where he served as executive editor for the Harvard Journal of Law & Technology and as a student clinical worker at the Cyberlaw Clinic and the Health Law and Policy Clinic. Before law school, Noah pursued his own medical device startup and worked as a staff scientist at a patent prosecution firm.

Education

Harvard Law School JD, cum laude, 2022
